

Our program is led by JD Sidana MD, MHCM, FCCP and Joseph Salzillo, PA-C. Dr. Sidana is board certified in pulmonary and critical care. Joseph Salzillo, Physician Assistant holds a certification from Quinnipiac University in Pulmonary Care and has been practicing on behalf of Docs Medical Group for over 8 years. Together, we provide expert care for patient conditions such as:

- Chronic Obstructive Pulmonary Disease (COPD)
- Pneumonia • Shortness of Breath, Dyspnea
- Pleural Effusions • Tracheostomy Care
- Hypoxic or Hypercapnic Respiratory Failure
- Neuromuscular Respiratory Diseases
- Pulmonary Hypertension • Non-Invasive Ventilation

Experience our Signature Pulmonary Passport Rehabilitation Program which includes:

- Respiratory Therapy • Spirometry
- Oxygen Saturation Monitoring • Safe Use of Oxygen/Weaning
- Patient Education and Tools • Nebulizer/Inhaler Training
- Pharmacological Management • High-tech therapy includes Life2000®device • Set up technology for discharge home

What can Non-Invasive Ventilation do?

- Decrease shortness of breath and improve quality of life
- Increase ability to participate in physical therapy, level of exertion and increased duration
- Maintain or improve breathing, physical activity and participation of Activities of Daily Living (ADLs)
- Help reduce or prevent exacerbations and hospitalizations
- Provide more natural volume delivery, giving patients additional flow when needed
- 3 prescription settings individualized to patient's activity level
